Chapter 2 Separation Program Designator Codes

Section I General

2-1. General

Separation program designator (SPD) codes are three-character alphabetic combinations that identify reasons for, and types of, separation from active duty. The primary purpose of SPD codes is to provide statistical accounting of reasons for separation. They are intended exclusively for the internal use of Department of Defense (DOD) and the military services to assist in the collection and analysis of separation data. This analysis may, in turn, influence changes in separation policy.

2–2. Exception to SPD usage

In the case of separations for which a DD form 214 is not issued and no SPD code is used (for example, death or entering the U.S. Military Academy), statistical accounting is accomplished through use of transaction change number (TCN) codes as prescribed by AR 680–29.

Section II Codes and Usage

2-3. Rules for SPD code control and usage

a. When SPD codes and narrative reasons for separation are listed together, they are considered "For Official Use Only" and will not be released to any agency or persons outside the DOD.

(1) Documentation containing SPD codes and narrative reasons for separation will be stored, handled, and transmitted in accordance with AR 25-55, chapter 4.

(2) Destruction of this document and/or other documentation containing SPD codes and narrative reasons will be by burning, shredding, or other appropriate method.

b. The regulatory or other authority for separation will be entered in block 25 of DD Form 214 in accordance with AR 635–5 and this regulation. When tables 2–2 and 2–3 provide an option for the regulatory citation (for example, AR 635–200, para 16–4*a* or *b*), the most appropriate specific regulatory authority will be entered in block 25, based on the circumstances of the case as documented in the soldier's personnel record. Do not enter all of the options in block 25.

c. The SPD code will be entered in block 26 or the DD Form 214 per AR 635-5 and this regulation.

d. The narrative reason for separation will be entered in block 28 of the DD Form 214 exactly as listed in tables 2-2 or 2-3 of this regulation. No deviation is authorized.

e. SPD codes are not intended to stigmatize an individual in any manner. The SPD code of a former soldier will be explained to him/her, or a designated representative (for example guardian or executor), only upon receipt of a written request.

(1) As a minimum, the request will include full name, grade or rank at time of separation, social security number (SSN) or Army service number, and reason for the request.

(2) Requests for explanation of SPD codes must be signed by the former soldier or a legally designated representative providing proper documentation of authority to act on behalf of the former soldier.

2-4. Steps for SPD code control and usage

The steps required for SPD code control and usages are shown in table 2-1, below.

Table 2–1 SPD code control and usage			
Step	Work center	Required action	
1.	PSB/MPD/TC	Select the appropriate SPD code that identifies the type of separation and correct regulatory or other authority that corresponds with the reason for the soldier's separation.	
2.	тс	Ensure that proper entries identifying separation authority, SPD code, and narrative reasor for separation are inserted in blocks 25, 26, and 28 of DD Form 214.	
3.	PSB/MPD	Ensure that only authorized persons have access to the SPD codes and associated narra- tive reasons. Distribution of SPD codes will not be made to any agency or individual outside DOD.	
4.	PSB/MPD	Ensure requests for explanation by former soldiers or designated representatives (for ple, guardian or executor) are in a written and signed format with adequate identi (that is, full name, grade, or rank at separation, SSN or Army service number, and for request).	
5.	PSB/MPD/TC	Ensure that this regulation and other documentation containing SPD codes and related nar- rative reasons are stored, handled, and transmitted in accordance with AR 25–55, chapter 4, and are destroyed by an appropriate method when necessary.

Notes

¹ SPD code identifies resignation or voluntary discharge in lieu of elimination proceedings.

² To be used when Headquarters, Department of the Army (HQDA) message or other directive announces voluntary early separation program with monetary incentives.

³ To be used for resignation or voluntary release from active duty (REFRAD) of officers to enlist in the Regular Army (RA) for the purpose of length-of-service retirement or continued active service in enlisted status.

⁴ SPD codes signify voluntary discharge or REFRAD or involuntary discharge due to reduction in force, strength limitations, or budgetary constraints. Although they are not presently used, they are included in the Army SPD inventory for possible future use should the need arise. Instructions for use will be provided by HQDA message or other directives announcing implementation.

⁵ To be used only when HQDA message or other directive authorizes voluntary separation in an individual case or category of cases.

⁶ SPD codes signify voluntary or involuntary discharge for miscellaneous or general reasons but do not identify a specific existing reason for separation. They are included in the Army SPD inventory for possible future use should the need arise. Instructions for use will be provided by HQDA message or directive announcing implementation.

⁷ SPD code signifies involuntary discharge for physical disability not otherwise covered herein but does not identify a specific type of disability that warrants separation. It is included in the Army SPD inventory for possible future use should the need arise. Instructions for use will be provided by HQDA message or other directive announcing implementation.

⁸ SPD code identifies voluntary retirement for length of service.

⁹ SPD code signifies mandatory retirement for length of service or physical disability.

¹⁰ SPD code is used for reversion of recalled retirees to the retired list on completion of required active service or period for which ordered to active duty. Instructions for use will be provided by HQDA message or other directive announcing implementation.

¹¹ SPD codes identify recalled retirees who, upon reversion to retired status, have incurred a disability (permanent or temporary) or have aggravated a previous disability.

Notes:

¹ To be used for Regular Army (RA) soldiers eligible to reenlist or with a Declination of Continued Service Statement (DCSS) in force who are discharged on completion of enlistment.

² To be used when a HQDA message or other directive announces voluntary early separation program with monetary incentives.

³ To be used when a HQDA message or other directive announces voluntary or involuntary early separation program due to reduction in force, strength limitations, or budgetary constraints.

⁴ DD Form 214 is not issued to enlisted soldiers discharged for the purpose of immediate reenlistment. However, SPD code KHC is retained for statistical accounting purposes.

⁵ SPD codes signify voluntary or involuntary separation for miscellaneous or general reasons, but (except for involuntary discharge under AR 635–200, para 5–14) they do not identify a specific existing reason for separation. They are included in the Army SPD inventory for possible future use should the need arise. Instructions for use will be provided by HQDA message or other directive announcing implementation.

⁶ To be used for RA soldiers eligible to reenlist or with a DCSS in force who are REFRAD on completion of enlistment and transferred to the Reserve components to complete military service obligation. Also to be used for Army National Guard of the United States (ARNGUS) or United States Army Reserve (USAR) soldiers who are REFRAD on completion of required active service or period for which ordered to active duty.

⁷ Except for those with a DCSS in force, to be used for RA soldiers ineligible for, barred from, or otherwise denied reenlistment that are separated on completion of enlistment.

⁸ To be used for involuntary discharge of prior service soldiers who, during current period of service, aggravate a former disability for which previously separated.

⁹ The SPD code signifies involuntary discharge for physical disability not otherwise listed herein but does not identify a specific type of disability that warrants discharge. It is included in the Army SPD inventory for possible future use should the need arise. Instructions for use will be provided by HQDA message or other directive announcing implementation.

¹⁰ SPD code signifies involuntary discharge for misconduct not otherwise listed herein but does not identify a specific existing type of misconduct that warrants discharge. It is included in the Army SPD inventory for possible future use should the need arise. Instructions for use will be provided by HQDA message or other directive announcing implementation.

¹¹ To be used for soldiers who retire pursuant to selection by a Selective Enlisted Release Board (SERB), or other retirement program, due to reduction in force, strength limitations, or budgetary constraints. Instructions for use will be provided by a HQDA message or other directive announcing implementation.
¹² To be used for reversion of recalled retirees to the retired list on completion of required active service or period for which ordered to active duty. Instructions for use will be provided by a HQDA message or other directive announcing implementation.

¹³ SPD codes identify recalled retirees who, upon reversion to retired status, have incurred a disability (permanent or temporary) or have aggravated a previous disability.
